

2025 Childrens Registrations Report

57 Athletes registered this season

34 of those returning from last season

23 new or have returned to the club this season

42 athletes attended our open day trainings

Notes for next season:

The 2 registration links continues to be the biggest admin consumer with a number of CCAA registrations missed. Continue to provide comms to families around this - any ideas of how to ensure both links get completed are welcomed.

Timing - aim to get info out to schools, community and returning families as early as possible, snuck up on us this season.

Training fees - see if we can include these in the Game Day portal to be captured at registration, also look at products for 6's, not able to order uniform or pay NCAN portion of registration?
